Software engineer with 4+ years of professional experience, seeking full-time Front-End and Full Stack roles.

TECHNOLOGY & MEDIA SKILLS

Technical Skills: HTML, CSS, JavaScript, React, SCSS, Flexbox, C#, .NET, Content Management Systems, GitHub, Jira

Soft Skills: Communication, collaboration, problem solving, empathy, rising up to challenges, sense of design

EXPERIENCE

Web Engineer II   02/22 - Present
Rapid7   *New York, NY*
- Develop ~8 components monthly to increase CMS usability, scalability, and accessibility using C# and .NET.
- Assist with ~4 monthly front-end feature developments and codebase enhancements using JS, HTML and SCSS.
- Maintain ~120 page and ~170 block templates across 3 sites using C#, .NET, HTML, SCSS, JS, and React.

Web Engineer I   11/20 - 02/22
Rapid7   *Boston, MA / New York, NY*
- Develop ~2 pages monthly to increase conversion rates and showcase campaigns using HTML, SCSS, and JS.
- Develop and enhance ~4 components monthly on the back-end using .NET framework and C#.

Growth Strategy Rotational Program   06/19 - 11/20
Rapid7   *Boston, MA*

Rotation 3 (90%) and 4: Web Development
- Assist with development and upkeep of ~30 CMS page and block templates using HTML, SCSS, JS, and C#.

PROJECTS

Table Reservation System. Created a website with table reservation functionality for a fictional restaurant as a capstone project in my Meta certificate program. Built wireframes and high-fidelity prototypes in Figma. Developed reusable, accessible components using React, HTML, CSS, and JavaScript. Conducted unit testing with Jest.

Rapid7 Customer Pages. Acted as a back-end strategist and developer for revamped customer pages, resulting in a refined user experience on 250+ pages. Assisted with front-end component development using HTML, SCSS, and Vue.JS. Helped drive a successful launch and implementation strategy with cross-functional partners.

Rapid7 Homepage. Contributed to both back-end strategy and development, as well as front-end component tweaks for a refreshed Rapid7 homepage. Condensed a 3-week project timeline into under a week due to business demands. Resulted in increased brand visibility and an enhanced, more engaging user experience.

COURSES AND CERTIFICATIONS

Front-End Developer Professional Certificate - Meta, Coursera
- ~165 hour set of courses focusing on front-end fundamentals such as HTML/CSS, JavaScript, React, and UX/UI.

Foundations of UX Design - Google, Coursera
- 20 hour course exploring foundational UX design concepts such as user-centered design and accessibility.

LEADERSHIP

- Member of **Women Who Code**, an organization that empowers women in tech.

EDUCATION

Bachelor of Arts, Computer Science, Connecticut College   2015-2019
Selected Scholar, Ammerman Center for Arts and Tech, Connecticut College   2015-2019
